

Web Designing and Publishing Practical (PR2)

JAN-2025

1-Create a web page which divides the page in two equal frames and place the audio and video clips.

2-Create two HTML pages (page1.html and page2.html).

(a) On page1.html, create a link that points to a specific section of page2.html (e.g., linking to a section with the id="contact").

(b) On page2.html, create a section with the corresponding id="contact".

(c) Ensure that when the link is clicked, the page scrolls directly to the section.

3-Design a page titled "Website Components":

(a) Add a title "Website Components" and style it with font size 24, bold.

(b) List and briefly describe the components of a website (e.g., Header, Footer, and Content Area).

(c) Add an example layout image for each component with captions.
