

Web Designing and Publishing Practical (PR2) JULY 2025

Qs 1. Create a table using HTML that shows employee data. Use ROWSPAN to merge rows for repeated departments and COLSPAN for header alignment.

Qs 2. Create a webpage named welcome.html that includes.

- a. A large title "Welcome to My Webpage"
- b. Two paragraphs describing yourself.
- c. Use bold, italic, and underline formatting within the text.

Qs 3. Use HTML and CSS to show the word "Welcome" and apply styles: center alignment, large size, bold, underline, and change color on hover.
