

Internet of Things (IoT) Practical (PR4) – JAN 2026

Exam Date: 12 FEB 2026

Question 1:

Write a program using any one development board (Eg., Arduino or Raspberry Pi) to read data from a sensor. Experiment with both analog and digital sensors.

Question 2:

Write a program to push sensor data to cloud.

Question 3:

Write a program to access the data pushed from sensor to cloud and apply any data analytics or visualization services.
